

Competition

Who has the oldest materials testing machine worldwide?*

We would like to find out where the oldest materials testing machine still in use is located.

- All participants' names will be entered into a draw for an **Apple iPad 2**

- The oldest machine will be awarded a goods voucher (to be exchanged for modernization, retrofitting or services) to the amount of **€ 10,000**

Please send a picture of the entire machine, a calibration report or a video as proof of operability and a picture of the clearly legible identification plate to josef.leyendecker@zwick.de.

The closing date for entries is 30th June 2012. Prizes will be presented during the 21st testXpo at Zwick's premises in Ulm in October 2012.

*Conditions of entry: the testing machine must still be in use. The judges' decision is final; there is no right to legal recourse.
